High Altitude Tent Fabric

- 50% Higher Tensile Strength
- Wind, Water & Flame Resistant

Parameters	Specification of Suggested Polyester Cotton Fabric	Existing Specification No. No. JSS 8305-5 for fabric closely woven
Finished Weight	300 gsm	265 gsm
Breaking Strength (5x20cm)	Warp 2985 N Weft 2790 N	2265 N 1480 N
Flame Resistance	Good Flame Resistance	Non Flame Resistant
Air Permeability	Does not allow winds to permeate	Highly Breathable
Water Proofing Hydro Static Water Head	107 cms	30 cms
